

# Are you looking for material with extreme protection combined with comfort?

**Blade cut resistance 3** / one layer

**Blade cut resistance 5** / two layers

**Abrasion resistance 3**

**Tear resistance 4**

Cutlon® is especially made to protect from the blade cuts but it is excellent for any kind of clothing due to its pleasant feel. The magic of Cutlon® comes from the special polyethylene fiber. It has extreme durability and strenght and excellent blade cut resistance. Polyethylene does not absorb any moisture and transforms heat rapidly from the skin. These features give Cutlon® such amazing feeling of comfort and great protection. Tested according to EN388 and is excellent for protective wear.
